

# “The PulseFlow changed my mind on tunnel washing.”

– **Tim King**, *Partner/General Manager at ImageFIRST*

Tim King admits he was a skeptic of tunnels, but understood that the production would benefit from a tunnel washer. “I saw firsthand how white the linen came out. PulseFlow is what changed my mind about tunnel washing. With a top-transfer tunnel, you get the lift-and-drop effect just as you do as in a washer-extractor.” *ImageFIRST Clearwater* now runs as much linen as possible through the tunnel because of its inherent savings. Since the plant began using the PBW™ tunnel, the laundry’s water and sewer bills have been cut in half... even with the continued use of their aging two large open-pocket washer-extractors.

**To find out how Milnor can cut your water bill in half, contact an authorized Milnor distributor or call 504-712-7656.**
